About Me

Frontend Developer specializing in React and Next.js, with experience collaborating with both freelance and company teams. Skilled in converting UI designs into production-ready code, building and managing complex forms using React Hook Form, and continuously learning modern web technologies.

Work Experience

Frontend Developer

2024 - 2025

Vira Rayanesh Sepehr Co.

Developed modern web applications using Next.js and React. Implemented responsive user interfaces with TailwindCSS, managed server state with React Query, and handled form validation using Zod.

Frontend Intern

Oct 2023 - Jan 2024

Ghaleh Karand Co.

Built responsive web pages, developed reusable React components, and collaborated with backend developers to integrate APIs efficiently.

Projects

Biterno Exchange

biterno.pepedemo.ir

A cryptocurrency exchange landing page featuring real-time market prices. Implemented an optimized polling mechanism to refresh data every 20 seconds without unnecessary re-renders.

Vapora Landing Page

vapora.pepedemo.ir

A modern landing page built with Next.js App Router and a component-based architecture. Designed with a mobile-first approach, focusing on performance and technical SEO.

Pepe Studio

pepe.ir

A digital studio platform featuring a user dashboard, internal ticketing system, service reporting tools, and a custom page builder for content management.

Ghaffari Law Firm

marzieghafari.com

The official website of a licensed attorney, designed with a professional and minimalist approach. Optimized for local SEO and easy access to legal services.
